

## Delta Dental | Priority Medicare benefit brief

**Short description** Routine dental coverage

**Vendor** Delta Dental®

**Summary** All individual MAPD members have basic routine dental coverage included in their plans. Members can add a supplemental enhanced dental and vision package for an additional monthly premium. Note that Priority Medicare Vital, Key, D-SNP and D-SNP Advantage members have comprehensive dental coverage embedded.

**Where services may be performed** Dental offices that accept Medicare.

**Authorization required?** No.

**Accessing and using the benefit**

The dental plan is administered by Delta Dental of Michigan. To get the most from their dental benefit, members should use an in-network provider. If they use an out-of-network provider, they may pay more for the services they receive.

If an out-of-network provider is used, the member may need to file an out-of-network claim using the dental claim statement form. Unless payment is authorized to the provider on the form, Delta Dental will send payment to the member, and they will be responsible for making the full payment to the dentist. The member is responsible for paying any difference between what Delta Dental pays and the total bill.

To find participating providers, members should first call their dentist's office and ask if they participate with Delta Dental Medicare Advantage PPO or Delta Dental Premier Network. Members can also call Delta Dental at 800.330.2732 or visit [deltadentalmi.com/Find-a-Dentist](https://deltadentalmi.com/Find-a-Dentist). When using the online directory, they must select the link labeled *Medicare Advantage PPO* and *Medicare Advantage Premier*.

**Coverage  
criteria**

For in-network benefits, members must use the Delta Dental Medicare Advantage PPO (D-SNP and MAPD) or Delta Dental Premier (only MAPD) networks, which include dentists in Michigan, Ohio, and Indiana ONLY.

Employer group waiver plans (EGWPs) do not have embedded dental coverage, except for Corewell Health, which offers dental coverage to its retirees. However, custom EGWP groups do have the option to add/ customize dental benefits.

If members are traveling, they have out-of-state coverage at in-network cost-sharing levels across the U.S. Members can use Delta Dental's provider search for travel benefits at [\*\*providers4you.com/medicareadvantagetraveler\*\*](https://providers4you.com/medicareadvantagetraveler).
