

BILLING POLICY No. 172

Medical Errors: Serious Reportable Events/ Hospital Acquired Conditions

Date of origin: December 2025

Review dates: NA

APPLIES TO

- Commercial
- Medicare follows CMS unless otherwise specified
- Medicaid follows MDHHS unless otherwise specified

DEFINITION:

This policy outlines proper reporting for hospital acquired conditions and events that occur while in a facility that require reporting.

Please note: Patients and payers are not financially responsible for medical errors or hospital acquired conditions.

Definitions

- **Serious Reportable Events (SRE)** – These are events that should never happen in a healthcare setting
- **Hospital Acquired Conditions (HAC)** – Conditions that develop during a hospital stay
- **Present on Admission (POA) indicator** – A code used to indicate if a diagnosis was present at the time of an inpatient admission.
- **Never Events** – A term previously used by the National Quality Forum for 28 preventable occurrences in healthcare.
- **Adjustment factor**- A ratio used to adjust payment based on DRG when conditions were not present on admission

MEDICAL POLICY

FOR MEDICARE

For indications that don't meet criteria of NCD, local LCD or specific medical policy a Pre-Service Organization Determination (PSOD) will need to be completed. Get more information on PSOD [in our Provider Manual](#).

POLICY SPECIFIC INFORMATION

Place of service

This policy is applicable in any recognized healthcare setting including hospitals, surgical centers, non-acute care facilities, physicians' offices, infusion centers, and the home.

Documentation requirements

Acute care inpatient facilities must report hospital acquired conditions to priority health within 48 hours.

Priority health tracks serious reportable events and HACs through case management, claims review, and member complaints.

Ways to report:

Phone:

- Customer Service: (800) 942-0954
- Provider Helpline: (800) 942-4765
- RN Care Manager (Quality Concerns): (616) 355-3234

Email: QCC@PriorityHealth.com

Coding specifics

Present on Admission Indicator

Mandatory for inpatient claims to indicate whether a diagnosis was present at the time of admission.

Indicator	Description
Y	Diagnosis was present at the time of inpatient admission
N	Diagnosis was not present at time of inpatient admission
U	Documentation is insufficient to determine if condition was present at the time of inpatient admission.
W	Clinically undermined. Provider unable to clinically determine whether the condition was present at the time of inpatient admission.
1	Exempt from POA reporting. This code is the equivalent of a blank on the UB-04

Related denial language

Priority Health reserves the right to deny payment for all or part of services rendered when an SRE or HAC occurs during the inpatient stay. Claims associated with medical errors will not be reimbursed.

DISCLAIMER

Priority Health's billing policies outline our guidelines to assist providers in accurate claim submissions and define reimbursement or coding requirements if the service is covered by a Priority Health member's benefit plan. The determination of visits, procedures, DME, supplies and other services or items for coverage under a member's benefit plan or authorization isn't being determined for reimbursement. Authorization requirements and medical necessity requirements appropriate to procedure, diagnosis and frequency are still required. We use Current Procedural Terminology (CPT), Centers for Medicare and Medicaid Services (CMS), Michigan Department of Health and Human Services (MDHHS) and other defined medical coding guidelines for coding accuracy.

An authorization isn't a guarantee of payment when proper billing and coding requirements or adherence to our policies aren't followed. Proper billing and submission guidelines must be followed. We require industry standard, compliant codes defined by CPT, HCPCS and revenue codes for all claim submissions. CPT, HCPCS, revenue codes, etc., can be reported only when the service has been performed and fully documented in the medical record to the highest level of specificity. Failure to document for services rendered or items supplied will result in a denial. To validate billing and coding accuracy, payment integrity pre- or post-claim reviews may be performed to prevent fraud, waste and abuse. Unless otherwise detailed in the policy, our billing policies apply to both participating and non-participating providers and facilities.

If guidelines detailed in government program regulations, defined in policies and contractual requirements aren't followed, Priority Health may:

- Reject or deny the claim
- Recover or recoup claim payment

An authorization on file for an item or services doesn't supersede coding, billing or reimbursement requirements.

These policies may be superseded by mandates defined in provider contracts or state, federal or CMS contracts or requirements. We make every effort to update our policies in a timely manner to align to

these requirements or contracts. If there's a delay in implementation of a policy or requirement defined by state or federal law, as well as contract language, we reserve the right to recoup and/or recover claim payments to the effective dates per our policy. We reserve the right to update policies when necessary. Our most current policy will be made available [in our Provider Manual](#).
