

2025 Preventive Drug Coverage List

**Priority Health employer group
and individual plans**

Last Updated: September 2024

What are preventive health care services?

Preventive health care services help you avoid potential health problems, or find them early when they are most treatable, before you feel sick or have symptoms.

What plans have preventive care services?

Most Priority Health employer group and individual plans include preventive care at no cost to members. There are a few plans that do not include preventive care or have special guidelines.

- If you purchased a MyPriority short-term plan, your plan does not include preventive care services.
- If you have a grandfathered plan, which is typically an employer sponsored plan that hasn't changed since 2010, preventive care services may be excluded, or there may be specific costs for certain preventive care services.
- Some employers may exclude contraceptives from their health plans.

Are any other drugs or pharmacy services covered?

Refer to the Approved Drug List at priorityhealth.com/formulary for up-to-date information.

Medication class <i>Criteria</i>	Covered products
Vaccines <i>Pediatrics</i>	<ul style="list-style-type: none">• Varicella (Chickenpox)• COVID-19• Diphtheria, tetanus, pertussis (Whooping cough)• Influenza• Haemophilus influenza type B• Hepatitis A• Hepatitis B• HPV (human papillomavirus)• MMR (Measles, mumps, rubella)• Meningitis (meningococcal)• Pneumonia (pneumococcal)• Polio• RSV (respiratory syncytial virus)• Rotavirus
