

Chronic conditions coverage for PriorityHSA

Certain services, supplies, and prescription drugs covered ahead of deductible for small group employers.

When you have a high deductible health plan (HDHP), you must meet your deductible before Priority Health starts to share the cost of most services, supplies and prescription drugs. To better manage and treat chronic conditions, Priority Health offers IRS-allowed chronic conditions coverage for the cost of a copayment or coinsurance ahead of deductible on all small group **PriorityHSA** plans¹.

Per IRS guidelines, covered chronic conditions include:

- Asthma
- Congestive heart failure
- Coronary artery disease
- Depression
- Diabetes
- Hypertension (high blood pressure)
- Osteoporosis/Osteopenia
- Liver disease and/or bleeding disorder
- Heart disease

With a **PriorityHSA** plan, your employees will receive the following medical services and supplies at a cost-share ahead of deductible when seeing an in-network, participating provider²:

Medical services	Durable medical equipment (DME) ³	Continuous Glucose Monitors (Pharmacy)
<ul style="list-style-type: none"> • Retinopathy screening for members diagnosed with diabetes • Hemoglobin A1c testing for members diagnosed with diabetes • International Normalized Ratio (INR) testing for members with liver disease and/or bleeding disorders • Low Density Lipoprotein (LDL) testing for members with heart disease 	<ul style="list-style-type: none"> • Blood pressure monitor for members diagnosed with hypertension • Glucometer for members diagnosed with diabetes⁴ • Peak flow meter for members diagnosed with asthma 	<ul style="list-style-type: none"> • Continuous Glucose Monitors and associated supplies are covered at 100% (before deductible)⁵ through participating pharmacies. <p>Available CGMs:</p> <ul style="list-style-type: none"> • Dexcom G6 and G7 • Freestyle Libre

Additionally, employees will have access to certain prescription drugs and select continuous glucose monitors and supplies ahead of deductible.
