

We've partnered with TruHearing so you can save money.

Have you heard about our hearing discount program?

As a Priority Health member, you get discounts on hearing exams and high-quality hearing aids through the TruHearing® discount program. This can save you and your extended family 30% to 60% on the latest technology from top hearing aid manufacturers. TruHearing even saves you more on hearing aid models than purchasing the same model at a retail location.

Other discount program benefits include:

- A hearing exam plus one year of follow up visits
- Access to over the counter (OTC) hearing care for eligible members
- A 60-day risk-free trial and three-year warranty for your hearing aids
- Local, professional care from an accredited provider in your area
- Guidance and assistance from a TruHearing hearing consultant

How it works

When you call TruHearing, you'll be connected to a consultant who can answer any questions you have and help you set up an appointment with a local, accredited provider.

At your appointment, your provider will determine if you require hearing aids and, if necessary, order them for you. You'll have ongoing support with fitting assistance, follow-up appointments and continued access to your hearing consultant.
