

An overview: The Disease Burden Management (DBM) Incentive Program

ACNs can earn 2 incentives in the DBM Program:

The Chronic Condition (HCC) Recapture Incentive

To earn this incentive, an ACN must demonstrate a 70% minimum HCC recapture rate with an increase of at least 2% from their 2023 recapture rate.

The per member per month (PMPM) payout tiers range from \$0 to \$6 depending on your recapture rate.

The PCP Visits Incentive

To earn this incentive, an ACN must meet a 70% minimum HCC recapture rate and see at least 95% of their eligible members during the 2024 performance year.

An ACN can earn \$1 PMPM for all eligible Priority Health patients who receive an appropriate evaluation and management (E/M) visit during the performance year.

How is payment structured?

ACNs who meet the HCC recapture incentive's program requirements will receive a one-time settlement payment for the 2024 performance year in April 2025.

ACNs who meet the PCP Visits incentive's program requirements will be paid in two installments:

1. A preliminary payment in August 2024, if 70% of eligible members are seen by May 31, 2024
- and
2. A settlement payment in April 2025 – based on performance
