Priority Health	BILLING POLICY No. 174

Tumor Treatment Field Therapy (TTFT) Billing Policy

Date of origin: December 2025	Review dates: 2/2026, 07/2026

DEFINITION

This policy outlines billing and payment requirements associated with Tumor Treatment Field Therapy (TTFT).

Tumor Treatment Field Therapy (TTFT)- Tumor Treatment Field Therapy is a type of non-invasive cancer treatment that uses low-intensity electric fields to disrupt cancer cell division and growth.

Glioblastoma (GBM)- Also known as glioblastoma multiforme (GBM) is an aggressive form of brain cancer. It is rare, with an incidence of 3.21 cases per 100,000 population per year in the US.

Tumor Treatment Field Therapy (TTFT)- Tumor Treatment Field Therapy is a type of non-invasive cancer treatment that uses alternating electric fields to target cancer cell division and growth. Alternating electric fields are produced by a pulse generator and transmitted by ceramic transducers placed on a patient's head.

DISCLAIMER

CMS and/or MDHHS guidelines apply unless otherwise specified in this policy or provider manual. Where such guidance is absent, this policy applies. Priority Health's billing policies outline our guidelines to assist providers in accurate claim submissions and define reimbursement or coding requirements if the service is covered by a Priority Health member's benefit plan. The determination of visits, procedures, DME, supplies and other services or items for coverage under a member's benefit plan or authorization isn't being determined for reimbursement. Authorization requirements and medical necessity requirements appropriate to procedure, diagnosis and frequency are still required. We use Current Procedural Terminology (CPT), Centers for Medicare and Medicaid Services (CMS), Michigan Department of Health and Human Services (MDHHS), and other defined medical coding guidelines for coding accuracy.

An authorization isn't a guarantee of payment when proper billing and coding requirements or adherence to our policies aren't followed. Proper billing and submission guidelines must be followed. We require industry standard, compliant codes defined by CPT, HCPCS, and revenue codes for all claim submissions. CPT, HCPCPS, revenue codes, etc., can be reported only when the service has been performed and fully documented in the medical record to the highest level of specificity. Failure to document services rendered or items supplied will result in a denial. To validate billing and coding accuracy, payment integrity pre- or post-claim reviews may be performed to prevent fraud, waste and abuse. Unless otherwise detailed in the policy, our billing policies apply to both participating and non-participating providers and facilities.

If guidelines detailed in government program regulations, defined in policies and contractual requirements aren't followed, Priority Health may:

- Reject or deny the claim
- Recover or recoup claim payment

An authorization on file for an item or services doesn't supersede coding, billing or reimbursement requirements.

These policies may be superseded by mandates defined in provider contracts or state, federal or CMS contracts or requirements. We make every effort to update our policies in a timely manner to align these requirements or contracts. If there's a delay in implementation of a policy or requirement defined by state or federal law, as well as contract language, we reserve the right to recoup and/or recover claim payments to the effective dates per our policy. We reserve the right to update policies when necessary. Our most current policy will be made available in our Provider Manual.
