

Fertility treatments (IUI and IVF) with Carrot

Carrot Fertility provides inclusive hormonal health, fertility, and family-building benefits. Members can use Carrot to get personalized support — regardless of age, race, income, sex, sexual orientation, gender, marital status, or geography.

This includes support and financial coverage for assisted reproductive technology, commonly referred to as fertility treatments, such as intrauterine insemination (IUI) and in vitro fertilization (IVF).

Visit app.get-carrot.com/signup/info to claim your benefit today and start exploring the available resources for IUI and IVF, including funds provided to help pay for eligible care.

Understanding fertility treatment options

Fertility treatment options may include:

- **Fertility testing:** At-home or in-clinic testing options to better understand fertility health, including hormone levels, ovarian reserve, and sperm health
- **Fertility preservation:** Egg, sperm, and embryo freezing
- **Intrauterine insemination (IUI):** A fertility treatment that places sperm directly into the uterus to help a person get pregnant
- **In vitro fertilization (IVF):** A procedure in which retrieved eggs are fertilized by sperm in a lab and then transferred to the uterus as an embryo

“

I may not have gone through another round of IVF to have my second baby if it wasn't for my Carrot benefit. The introduction of the benefit right after I had an IVF cycle that didn't work could not have come at a more perfect time because it made me want to try once more. We ended up having our beautiful baby girl, and now we feel that our family is complete.

Personalized guidance

Use your Carrot benefit to:*

- Pay for eligible care and services, such as initial consultations with reproductive endocrinologists (REIs), diagnostic testing, procedures like IUI and IVF, and more**
- Talk virtually and as often as needed with Carrot medical experts and specialists including but not limited to experts in reproductive endocrinology, urology, and emotional support (like licensed clinicians and psychologists experienced in navigating the ups and downs of fertility and family building)
- Order medications from Carrot Rx— an easy-to-use pharmacy (powered by Alto) that offers up to 40% savings and price matching on most fertility medications, 24/7 support from certified clinicians, and free next-day delivery
- Find eligible fertility clinics near you
