Numerator compliance	The most recent blood pressure reading taken during an outpatient visit in the measurement year is < 140/90 mmHg		
Time period	Jan. 1, 2026 – Dec. 31, 2026		
Billing codes	Description	Code type	Codes
	Diastolic less than 80	CPT II	3078F
	Diastolic between 80-89	CPT II	3079F
	Diastolic greater than/equal to 90	CPT II	3080F
	Systolic less than 130	CPT II	3074F
	Systolic between 130-139	CPT II	3075F
	Systolic greater than/equal to 140	CPT II	3077F
Frequency/occurrence	Every visit (office and telehealth)		
Required exclusions	<ul style="list-style-type: none">Members receiving hospice servicesMembers receiving palliative careMedicare members 66 years of age and older as of December 31 of the measurement year who are enrolled in an institutional SNP (I-SNP) or living long-term in an institutionMembers 66 years of age and older as of December 31 of the measurement year with frailty and advanced illness / dispensed dementia medication		
Test, service or procedure to close care opportunity	<ul style="list-style-type: none">Blood pressure reading taken during an outpatient visitPatient reported blood pressure reading using a digital device and documented/recorded in the patient's medical record		
Medical record documentation (including but not limited to)	<p>Medical record dates: 01/01/2026 - 12/31/2026</p> <ul style="list-style-type: none">Consultation reportsDiabetic flow sheetsProgress notesVitals sheet <p>Submit medical record documentation to Priority Health HEDIS department:</p>		

	<ul style="list-style-type: none"> • Electronically uploading medical records – contact HEDIS@PriorityHealth.com to get a file set up or for more information • Email: HEDIS@PriorityHealth.com • Fax: 616.975.8897 • Mail: HEDIS at 1231 E Beltline, NE Mail Stop 1280, Grand Rapids, MI, 49525
Common chart deficiencies	<ul style="list-style-type: none"> • No blood pressure documented during office visit • Failure to retake blood pressure when the initial reading exceeds 140/90 during an office visit.
Claim submission deficiencies	Not submitting CPT II codes on claims submissions for all office and virtual visits to close care gap
Tips and best practices <ul style="list-style-type: none"> → Document all BP readings at every visit → Patient-reported BP readings are acceptable during telehealth, phone, e-visits or virtual check-ins, if taken on a digital device. These readings must be recorded, dated, and maintained in the patient's medical record. → If the patient's BP is 140/90 or higher at the start of the visit, recheck the BP at the end of the visit → If the recheck BP reading is still 140/90 or greater, schedule a follow-up appointment. When multiple readings during the same visit are taken, record all BP readings taken during appointment → Use CPT II codes when billing office/telephone/virtual visits to capture blood pressure result → Timely submission of claim data → Blood pressure service date and values can be accepted as supplemental data 	
Important notes <p>The last BP result of the year is the result that will determine if your patient is compliant for this measure.</p>
