

We've made it easier to use our Medical Benefit Drug List

We've updated the format of our Medical Benefit Drug List (MBDL) to improve navigation and help you more easily identify important information like medication coverage tier and prior authorization criteria.

What's changed?

The MBDL is now separated by line of business into three new Medical Drug Lists (MDLs).

- [Employer group and MyPriority MDL](#)
- [Medicare MDL](#)
- [Medicaid MDL](#)

You can find the new **Medical Drug Lists (MDLs)** and our pharmacy Approved Drug Lists (ADLs) on our [Approved Drug List](#) in the [Medications & Pharmacy](#) page.
