

PriorityIntegra™

Combining Care + Coverage

As the largest integrated health system in the state, we believe in building bridges between care and coverage benefits by giving members a supported, coordinated and simple experience.

Our narrow network plan, PriorityIntegra, leverages the unique integration points between Priority Health and Corewell Health to deliver an exceptional member experience, integrated whole-person care and access to a user-friendly network of Corewell Health providers and select affiliate providers.

This product includes:

TytoCare can be used for the most common conditions like:

Certainty in the network

Our goal is to make sure all members enrolled in this plan understand how and where they can receive care. Members will receive guides, emails and information on their member ID cards indicating their plan is **PriorityIntegra** and reminding them they can only see providers within that network.
