Priority Health at Home: Hypertension Management

Priority Health

Priority Health at Home meets you where you are – literally.

Priority Health at Home provides in-home monitoring and support to members with a recent hospitalization or emergency room visit at a Corewell Health facility due to uncontrolled hypertension.

Priority Health at Home helps prevent needless and costly emergency room visits while increasing overall quality of life. In fact, patients participating in a similar remote monitoring program were 40% less likely to be readmitted to the hospital.

Priority Health at Home is a collaboration with Corewell Health's Visiting Nurse Association (VNA). Services available are:

· In-home visits

· Remote blood pressure monitoring including installation, hands-on training and technical support

· Care coordination with your primary care providers and specialists

· Prescription management and support

· Long-term care planning

Hypertension facts

According to the Centers for Disease Control and Prevention:

· Nearly half of adults have high blood pressure in the U.S., and only about 1 in 4 adults with high blood pressure have it under control.

· Hypertension puts you at risk for heart disease and stroke.

· In 2022, hypertension was a primary or contributing cause of 685,875 deaths in the U.S.

For more information about hypertension, visit: *cdc.gov/ high-blood-pressure*

Visit prioendayhealth.com/athome for more information. To see if you could benefit from Priority Health at Home services, contact VNA at **844.702.HOME (4663)** or *remotepatientmonitoring@ corewellhealth.org.*

For questions on your health plan, contact our Customer Service team by calling the number on the back of your member ID card or log in to your member portal account at *member.priorityhealth.com*

Members may have access to remote monitoring through additional health care provider resources.

*According to a study completed by Health Recovery Solutions, comparing remote monitoring patients to patients without remote monitoring that had the same diagnoses and re-hospitalization risk scores.

Out-of-network/non-contracted providers are under no obligation to treat Plan members, except in emergency situations. Please call our customer service number or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services.
