

Prostate biopsy pathology billing policy

Applies to

All products

Definition

To ensure clean claims and specificity, pathology for prostate biopsies should be billed using G0416, not 88305.

Policy specific information

- **G0416** Surgical pathology, gross and microscopic examinations, for prostate needle biopsy, any method

This specific code should be billed instead of code 88305, which is a broad code covering pathology for many different services.
