# **Instructions for Medicare Part D Prescription Drug Claim Form**

PLEASE READ THE INSTRUCTIONS CAREFULLY AND COMPLETE THE FORM.

### **Purpose**

The Prescription Drug Claim Form is offered as a tool to assist in getting your request for reimbursement paid as soon as possible. Use of the form is not required, but it is strongly encouraged. The information requested is needed to process your claim.

Please print clearly. Please note that missing, incomplete, hard-to-read, or ambiguous documentation can delay the successful processing of your claim.

This form can be used to request reimbursement for any of the following Medicare Part D prescription drug situations:

<u>Routine Prescriptions</u> – You purchased a prescription from a pharmacy without using your Medicare Part D benefit card.

<u>Hospital Observation</u> – You were admitted to a hospital or outpatient facility for up to three days for an observation and you were not allowed to bring the drugs you take on a daily basis from home. The are called self administered drugs. Only self administered drugs are covered by Medicare Part D.

<u>Vaccines</u> – You were administered a Medicare Part D approved vaccine. Be sure to check option "E" in **Section 4** and follow these instructions for submitting vaccine claims:

- If the vaccine was supplied and administered by your doctor, include the physician's invoice, check the box in **Section 3** but leave the rest blank, complete **Section 6** including checking the box for a Vaccine claim and complete the rest of the form.
- If the vaccine was purchased from and administered by a pharmacy, include the prescription receipt, skip **Section 5**, complete **Section 6** including checking the box for a Vaccine claim and complete the rest of the form.
- If the vaccine was purchased from a pharmacy but administered by your doctor, include the

prescription receipt from the pharmacy <u>and</u> the physician invoice from the doctor, complete **Section 6** including checking the box for a Vaccine claim and complete the rest of the form.

• If the vaccine was free but there was an administration fee, this fee cannot be reimbursed. An administration fee can only be covered by Medicare Part D if you paid for the vaccine.

<u>Compound Prescriptions</u> – A compound prescription is composed of multiple ingredients combined to form a treatment that isn't readily available. If you are not sure whether you received a compound prescription, ask your pharmacist.

Please note: not all plans cover compound prescriptions. Special instructions for compound prescriptions include:

- Request a receipt from the pharmacy that lists all of the ingredients. The list should include the National Drug Code (NDC), metric quantity and cost for each ingredient. Submit the pharmacy receipt with your claim.
- Check the box for Compound Claim in Section
   6 and complete the rest of the form.

#### **Receipts**

A receipt is <u>required</u> to be properly reimbursed for a Medicare Part D prescription drug claim. Please note: a cash register receipt is not sufficient. Please tape your receipt(s) to an 8.5x11 sheet of paper or submit a clear photo copy. Keep a copy for your records. Acceptable receipts include:

Prescription Receipt – This receipt is provided by the pharmacy. It shows the pharmacy information, date of service or fill date, physician, Rx number, drug name, eleven-digit NDC, quantity, days supply and amount you paid. This is usually the receipt attached to the outside of the prescription envelope.

*(continued on next page)* 

Physician Invoice – This will come from your doctor if you have been administered a vaccine. It should provide the doctor's information (ex. name, address, and phone number), date of service, drug name, drug NDC, and amount you paid, including any administration fee.

Hospital Invoice – This will be an itemized statement from the hospital resulting from an observation stay See Section 4, Option D for a definition. Please identify the drugs on the statement for which you are submitting a claim. Only identified drugs will be considered for reimbursement.
