

# Priority Health Pharmacy

In an evolving pharmacy landscape, Priority Health Pharmacy offers an integrated approach rooted in clinical expertise and member safety. Managing pharmacy benefits as part of a broader health plan allows us to deliver safer decisions, true cost savings and a more seamless experience for employers and members.

## Clinically led decisions that put people first

An independent pharmacy and therapeutics committee lead formulary and coverage decisions, grounding policies in evidence, safety and medical necessity for responsible, value-driven cost management.

- In-house prior authorizations reviewed by pharmacists
- Priority Health clinical pharmacists direct clinical and financial strategy for our formulary
- Policies designed with member safety as the highest priority

## A simplified, supported member experience

From coverage questions to clinical support, members receive personalized and knowledgeable assistance every step of the way.

- U.S.-based call center staffed by licensed and certified pharmacy technicians
- Support teams who understand coverage nuances, policies and member needs
- A guided pharmacy experience with coverage and cost support

## Focused on lowest overall cost, not rebate chasing

Rather than prioritizing rebates we focus on clinically effective therapies that deliver the lowest overall cost, driving sustainable savings today and stability for the future.

- Savings driven by clinical effectiveness and cost efficiency
- Long term affordability without compromising quality

## Benefits that work better together

Integrated pharmacy benefits improve care coordination and create a more connected experience for members, employers and agents.

- Smoother navigation and fewer handoffs for members
- Simplified administration with fewer escalations and greater confidence

**A better pharmacy partner for employers built for better outcomes, real savings and simpler experiences.**
