Getting started

You're registered and signed in—now what? Begin by completing program activities and building healthier habits one day at a time. Here are a few options to help you get started.

Health Assessment

The Health Assessment asks questions about your current health status and wellness habits. Once completed, your responses will be analyzed to generate a health score, show your health risks and provide practical tips to help you improve. Complete the survey by visiting Health Assessment under the Health tab.

Daily Cards

Every day we'll send you two new tips to help you live well. Plus, we'll make sure they're about the areas that interest you the most.

Healthy Habits

Whether it's learning new things, being productive or building relationships, select the Healthy Habits you want to work toward and track your progress every day. Repeating small steps daily helps reinforce the habit and build it into your routine.

My Care Checklist

My Care Checklist is an easy way to keep track of your health care history and remind you when you are due for well visits, routine screenings and vaccinations. Manage your health by keeping track of your health checkups all in one place.

Progress toward your goals

We'll help you make small, everyday changes, focused on the areas you want to improve the most. When you stick to our program, you'll build healthy habits, have fun and experience the lifelong rewards of better health and wellness. Plus, you'll earn points as a fun way to track your health progress all year long.

Learn easy ways to get more active, eat well, and manage life's ups and downs—every day!
