

All you need to know about Medicare star ratings

Medicare star ratings are an easy way to verify quality coverage at a glance.

Need to know if you're getting the best member experience staying healthy and safe, managing your chronic conditions, and finding accurate medication information from a plan you can count on? Shoot for the stars—the higher the star rating, the better the plan's performance. At Priority Health, we have a constellation of Medicare plans and our HMO-POS plans have a 5-star rating* we're proud to show off.

The reason we're so proud? That rating came from our members. Members contribute to a health plan's star rating, adjusted each year according to performance in five categories:

Helping members stay healthy: screenings, tests and vaccines

Managing chronic (long-term) conditions

Plan responsiveness and care

Member complaints, problems getting services and number of members who leave the plan

Customer service

*Star Ratings are available each fall. A plan can get ratings between one and five stars, as determined by the Centers for Medicare and Medicaid Services (CMS).

Stellar plans from Priority Health
